GlaxoSmithKline Ulverston

Manufacture of world class bulk oral and sterile cephalosporin antibiotics

Do more, feel better and live longer

Our site

The world leading cephalosporin GSK site at Ulverston has been operational since 1948. A global Centre of Excellence, we manufacture sterile and oral Cephalosporin Active Pharmaceutical Ingredients (API).

Situated in the beautiful English Lake District, the GSK site at Ulverston has always been important to the local community. Our sustainability and people development programmes are instrumental to the future of the site. Our highly trained and dedicated staff provide a wealth of knowledge and experience benefitting all areas of the workplace.

At GSK Ulverston, we manufacture medically critical Sterile and Oral Cephalosporin Active Pharmaceutical

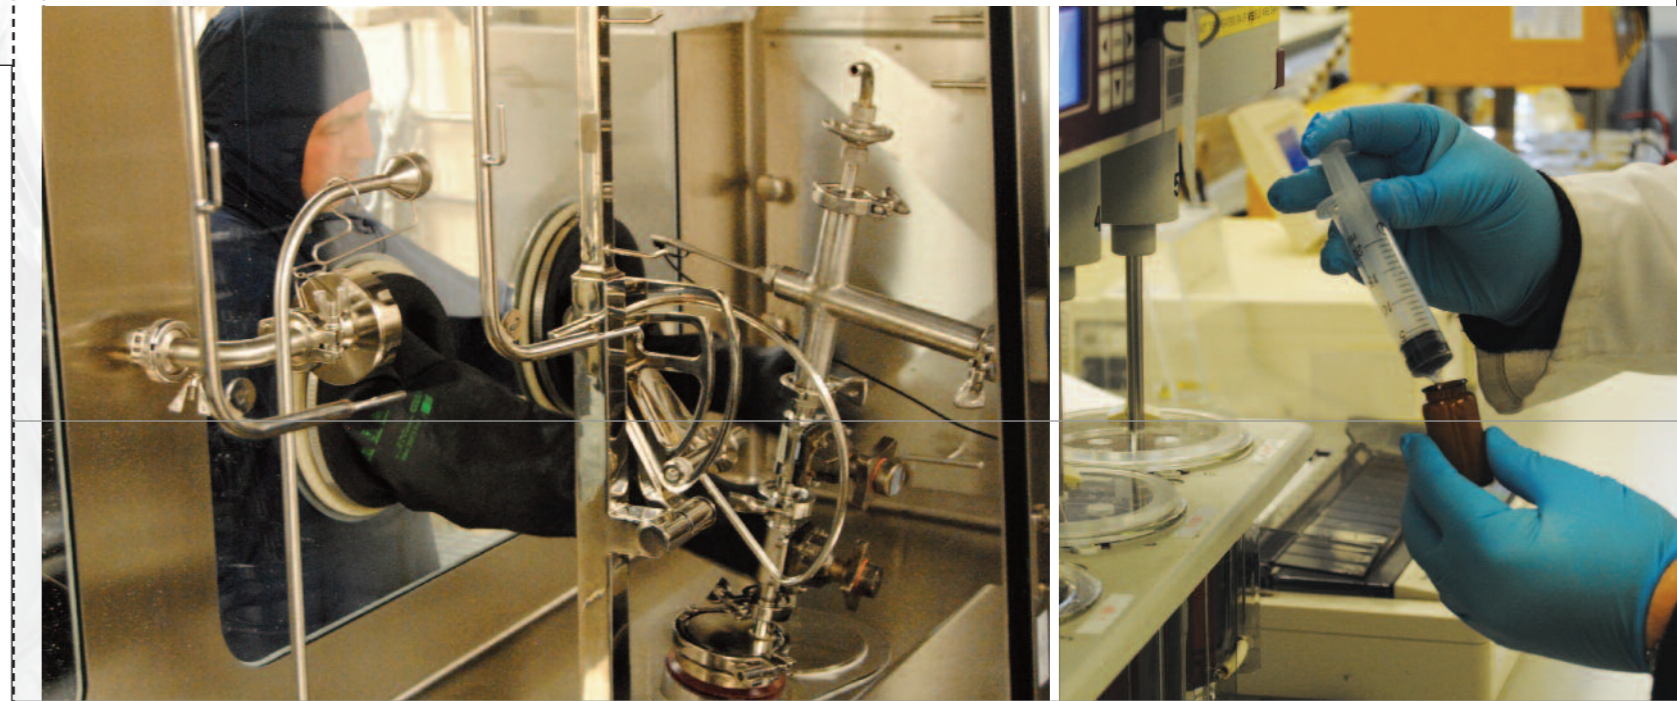

Ingredients (API) antibiotics which help save the lives of millions of people in over 100 markets worldwide. Our large scale dedicated plant and highly trained staff always work to ensure excellence in safety, quality, supply and cost, benefitting all our customers, both GSK and Third Party. Our investment in sustainability programmes, new technologies and people further drives continuous improvement across the site. GSK Ulverston partners with drug product sites to provide our customers with a secure supply chain, quality products and services and technical mastery to enable new as well as existing opportunities. ”

Greig Rooney
Site Director
