

Hong Kong patient group funding

Hong Kong Asthma Society

The Hong Kong Asthma Society (HKAS) aims to help asthma and allergy patients lead a normal life. It provides different support services to enable patients, their families and people in general to learn more about the causes of the diseases and how to prevent them. It also build a support network so that members can help one another.

Objectives of the HKAS:

1. Educate asthma and allergy patients and their families about the diseases.
2. Facilitate communication among patients and their families so that they can share their difficulties and encourage one another.
3. Organise recreational and social activities to enrich members' life and enhance their physical and mental health.
4. Promote awareness of these diseases among the public.
5. Promote patients' welfare and green issues, and defend legitimate rights.

We have supported this group for since 1989.

During 2019:

- GSK provided a grant of HK\$30,000 for supporting educational program of Asthma.
- Our support represented 4% of their overall income
