

New Zealand patient group funding

Positive Women

Positive Women Inc was born in 1990 to support and empower women and families living with or affected by HIV or AIDS. An often overlooked yet significant part of the HIV community living in New Zealand.

We raise awareness of HIV and AIDS in the community through educational programmes with a focus on prevention and de-stigmatisation.

We have supported this group since 2014.

During 2019:

- GSK provided financial support of \$5,000 (NZD), to support a research survey into the impact of stigma on people living with HIV in New Zealand

Our support represented 3% of their overall income.

During 2018:

- GSK provided \$5,000, to support HIV Stigma Index Research. This is a national study to investigate the prevalence of stigma and discrimination experienced by people living with HIV in NZ.

Our support represented 2.4% of their overall income.

During 2017:

- GSK provided a grant of \$7000, for an HIV Clinical Treatment Update.

Our support represented 3.4% of their overall income.

During 2016:

- GSK provided a grant of \$7000, for an HIV Clinical Treatment Update.

Our support represented 3.4% of their overall income.

During 2015:

- GSK provided a grant of \$4867, for an HIV Women's Seminar

Our support represented 2.4% of their overall income.

Meningitis Foundation Aotearoa

The Meningitis Foundation Aotearoa New Zealand was established by a group of passionate individuals committed to actively reducing and preventing meningitis in New Zealand.

Seeking to promote the prevention, control and awareness of meningitis, The Foundation is involved in awareness-raising and education activities within the community, and with health and education professionals. The scope of the work is centred on communication and advocacy, with a firm focus on improving access to vaccines in order to save lives.

We have supported this group since 2019.

During 2019:

- GSK provided financial support of \$10,000 (NZD), to support the redesign and update of the Meningitis Foundation website and key literature for World Meningitis day 2020

Our support represented 50% of their overall income.

NZ AIDS Foundation

With the same passion and commitment as those who came before us, NZAF continues to prevent HIV transmission, reduce stigma and maximise the wellbeing of those most affected. Through our community engagement, behaviour-change marketing campaigns, and testing and therapeutic support services, we reach people across New Zealand.

We advocate for healthy public policy and supportive environments to enable our work and all our programmes and services are informed by the best available science and evidence.

We have supported this group since 2019.

During 2019:

- GSK provided financial support of \$6,500 (NZD), for HIV Self-Test and HIV Self-Test Smart Vending Machine

Our support represented 1% of their overall income.
