

Argentina Patient Organisation Funding

HIPUA

HIPUA is an association made up of patients and their families and friends who collaborate to support people with pulmonary hypertension, a rare disease.

<http://www.hipertensionpulmonarargentina.org/>

We have supported this group since 2016.

During 2020*:

- GSK provided a grant of 238.000 ARS to develop a newsletter for patients regarding pulmonary arterial hypertension.

Our support represented 50% of their overall income.
