Virtual interviewing guide

Whether you’re interviewing on the phone or online, we want to support you to prepare and perform at your best. Here are our 6 top tips.

Use a stand or books to prop your laptop on so it’s at the right level for video calls.

If you have family members or pets at home, let the interviewer know there might be some background noise. Use headphones to make the call if possible.

Familiarise yourself with the technology you’ll be using.

Ensure you have a strong internet connection.

Don’t panic.
We’ll do everything that we can to make you feel comfortable and if you have any questions before, during or after the interview, just ask.

Minimise background noise by closing all windows and doors.
