Body Positive

Body Positive Inc. is a peer support organisation, founded by and run for, all people living with HIV in New Zealand. They offer support services for people living with HIV, helping to break down isolation and building a sense of community, while advocating on behalf of people living with HIV at a national level.

We have supported this group since 2014.

During 2021:

- GSK provided a grant of \$8 275 for the Body Positive one day Treatment Update Seminar.

Our support represented 2% of their overall income.

Talk Peach Gynaecological Cancer Foundation

Talk Peach Gynaecological Cancer Foundation educate the public on the early and often subtle signs of gynaecological cancers. They empower people to advocate for their health, helping those who have been diagnosed, to ask the right questions, and advocate for themselves if they aren't being listened to.

We have supported this group since 2021.

During 2021:

- GSK provided a grant of \$8,655 for 500 guides to be printed and distributed to people diagnosed with ovarian cancer; to assist them in processing the news, support them through the challenges ahead and empower them to ask questions, build support, and advocate for their health.

Our support represented 19% of their overall income.
