Our purpose

We unite science, technology and talent to get ahead of disease together

for health impact + shareholder returns + thriving people

Our strategy

We prevent and treat disease with vaccines, specialty and general medicines.

We focus on science of the immune system, human genetics, and advanced technologies investing in 4 core therapeutic areas and future opportunities to impact health at scale.

We operate responsibly for all our stakeholders by prioritising Innovation, Performance and Trust.

Our culture

We are ambitious for patients to deliver what matters better and faster.

We are accountable for impact with clear ownership and support to succeed.

We do the right thing with integrity and care because people count on us.
This is our Code

It outlines the commitments we ask everyone to make together.
To deliver our purpose and ambitions
For patients, shareholders and our people.

To make our culture real
So we are ambitious for patients, accountable for impact and do the right thing.

To create an outstanding place to work
Where everyone can thrive.

Why do we ask for these commitments?
The Code has two parts:

PART 1

GSK's commitments

PART 2

My commitments

We ask everyone at GSK to put their names to our Code with pride.
Because we are GSK and 2.5 billion people count on us to get it right.

We are accountable for our impact

We do the right thing

As a responsible company

We are a force for good, with ambitious targets for positive impact on the health of people, society and the planet.

We manage risks effectively, take action if things go wrong and we respect human rights.
We recruit and develop outstanding people: people who believe in our purpose, live our culture and want to help us achieve our ambition.

We expect managers to motivate, focus, develop and care for their teams.

We recognise, celebrate and reward success – the progress we deliver and how we deliver it.

We create a place where people can grow, be their best, be safe, and feel welcome, valued and included.
